TORQUE LIMITING IMPACT SOCKETS

TIRE TORQUE TOOLS

682960 | JTLS-1210S

JET is pleased to introduce an extensive expansion to our Tire Torque Tool offering!

Torque limiting sockets are built with specific torque ratings and are generally used with an air tool when tightening a fastener or wheel lug nut. Once the specified amount of torque is reached, the torque stick will flex and resist further tightening of the fastener. JET offers an extensive selection of sizes and torque specifications to provide maximum speed, accuracy, and convenience.

- **Speed**—Individual colour coding allows workers to recognize frequently used sizes at a glance.
- **Accuracy**—Because torque limiting sockets are designed with no moving parts, they do not require recalibration, and can offer mechanics a high level of precision and accuracy when used properly.
- **Convenience**—Torque limiting sockets let you choose the specific torque tool you need for the entire fastener or lug nut tightening process. No more tool changes, interruption of workflow, or multiple adjustments needed.

1/2" Drive 10-PC Torque Limiting Impact Socket Set

682960 | JTLS-1210S

Contains one each:

- 17 mm x 45 ft-lbs, 17 mm x 80 ft-lbs, 19 mm (3/4") x 65 ft-lbs, 19 mm (3/4") x 80 ft-lbs, 19 mm (3/4") x 100 ft-lbs, 21 mm x 80 ft-lbs, 13/16" x 100 ft-lbs, 7/8" x 120 ft-lbs, 7/8" x 140 ft-lbs, 15/16" x 135 ft-lbs

FEATURES

- Helps prevent damage to wheels, studs, and brake rotors that can result from inaccurate torque
- Socket stops turning once specified torque is achieved and absorbs any extra impact
- Constructed with durable chrome molybdenum spring steel
- Powder-coated finish provides superior scratch and corrosion resistance
- Size and torque rating are roll stamped on the drive end for easy identification
- Sets include carrying case for easy storage and organization
- Available in 1/2" drive for passenger cars and light-duty trucks, and 1" drive for heavy-duty truck and trailer applications

JET

TORQUE LIMITING IMPACT EXTENSIONS

Torque limiting extensions, or torque extension bars, share the same design as torque limiting sockets, however torque extensions do not include a built-in socket. The square end of the extension is built with a socket retainer and is ideal for use with thin wall and mag wheel impact sockets for ultimate protection of expensive wheels and lug nuts.

FEATURES

- Helps prevent damage to wheels, studs, and brake rotors that can result from inaccurate torque
- Socket stops turning once specified torque is achieved and absorbs any extra impact
- Constructed with durable chrome molybdenum spring steel
- Powder-coated finish provides superior scratch and corrosion resistance
- Size and torque rating are roll stamped on the drive end for easy identification
- Sets include carrying case for easy storage and organization
- Available in 1/2" drive for passenger cars and light-duty trucks, and 1" drive for heavy-duty truck and trailer applications

JET

3/4" x 16' Autolock SAE/Metric Tape Measure

775971 | JLTM-316SM

- Auto-locking with release buttons located on the side and bottom
- Magnetic hook sticks to steel studs and pipe for easy one-hand use
- Tape is marked every 16" and 19.2" for easy stud measurements
- Nylon-coated, nickel-plated blade resists corrosion
- High-contrast blade for easy reading
- Dual SAE and metric scales
- Integral rubber inserts provide maximum grip and protection
- Built-in bumper cushions reduce recoil impact
- Tape provides up to 1.9 meters (6.5 feet) standout
- Meets MID II (Measuring Instruments Directive) Standards

1" x 25' Autolock SAE/Metric Tape Measure

775979 | JLTM-425SM

- Auto-locking with release buttons located on the side and bottom
- Magnetic hook sticks to steel studs and pipe for easy one-hand use
- Tape is marked every 16" and 19.2" for easy stud measurements
- Nylon-coated, nickel-plated blade resists corrosion
- High-contrast blade for easy reading
- Dual SAE and metric scales
- Integral rubber inserts provide maximum grip and protection
- Built-in bumper cushions reduce recoil impact
- Tape provides up to 2.2 meters (7.2 feet) standout
- Meets MID II (Measuring Instruments Directive) Standards

3/4" x 16' SAE/Metric Tape Measure

775922 | JTM-316SM

- Magnetic hook sticks to steel studs and pipe for easy one-hand use
- Tape is marked every 16" and 19.2" for easy stud measurements
- Nylon-coated, nickel-plated blade resists corrosion
- High-contrast blade for easy reading
- Dual SAE and metric scales
- Easy-slide lock
- Integral rubber inserts provide maximum grip and protection
- Built-in bumper cushions reduce recoil impact
- Tape provides up to 1.9 metres (6.5 feet) standout

1" x 25' SAE/Metric Tape Measure

775924 | JTM-425SM

- Magnetic hook sticks to steel studs and pipe for easy one-hand use
- Tape is marked every 16" and 19.2" for easy stud measurements
- Nylon-coated, nickel-plated blade resists corrosion
- High-contrast blade for easy reading
- Dual SAE and metric scales
- Easy-slide lock
- Integral rubber inserts provide maximum grip and protection
- Built-in bumper cushions reduce recoil impact
- Tape provides up to 2.2 metres (7.2 feet) standout

TAPE MEASURES & REELS

1' x 25' SAE Tape Measure

775923 | JTM-425S

- Magnetic hook sticks to steel studs and pipe for easy one-hand use
- Tape is marked every 16" and 19.2" for easy stud measurements
- Nylon-coated, nickel-plated blade resists corrosion
- High-contrast blade for easy reading
- SAE scale
- Easy-slide lock
- Integral rubber inserts provide maximum grip and protection
- Built-in bumper cushions reduce recoil impact
- Tape provides up to 2.2 metres (7.2 feet) standout

1' x 33' SAE/Metric Tape Measure

775930 | JTM-33SM

- Magnetic hook sticks to steel studs and pipe for easy one-hand use
- Nylon-coated, nickel-plated blade resists corrosion
- High-contrast blade for easy reading
- Tape is marked every 16" and 19.2" for easy stud measurements
- Integral rubber inserts provide maximum grip and protection
- Built-in bumper cushions reduce recoil impact
- Easy-slide lock & belt clip
- Dual SAE and metric scales
- Tape provides up to 2.2-meter (7.2 feet) standout
- Meets MID II (Measuring Instruments Directive) Standards

Steel Tape Reel

775937 | JFTM-100

- Dual SAE and metric scales
- 3-times faster rewind mechanism, provided by fold-away handle
- Rubber moulding to provide better grip and help absorb shock if dropped
- 0-point inside ring
- 1/2" wide, 100' long steel tape
- Meets MID III (Measuring Instruments Directive) Standards

165' Fiberglass SAE/Metric Tape Reel

775912 | JFTM-165SM

- Two-sided tape features SAE measurements on one side, metric on the other
- Fold-away handle provides 4-times rewind speed
- 0-point inside ring
- High-contrast blade for easy reading
- Fiberglass tape resists moisture, mildew, rot, and is ideal for outdoor use
- Ergonomic case with rubber grip and bumpers
- 1/2" wide tape
- 165' / 50 m length
- Meets MID III (Measuring Instruments Directive) Standards

FLOOR & SERVICE JACKS

HYDRAULIC JACKS

2 Ton 2xP Low Profile Floor Jack

030404 | 962DL

BETTER**

- Low Profile – 75 mm (2.95")
- 2xP – Double pump design for fast, efficient lifting
- Superior-grade “soft” components for better performance in increased jack life
- Padded handle bumper protects vehicle finish
- Equipped with safety bypass to prevent overloading
- Rear-mounted swivel casters for easy manoeuvrability
- Convenient integral parts tray

2 Ton Long Chassis Floor Jack SHD

030604 | 982LCJ

BEST**

- Ultra-low height at 2-3/4" is ideal for servicing sports cars and other low-rise vehicles
- 23-5/8" max. lift height provides versatility needed to lift small SUVs and lightweight pick-up trucks
- 18" throw allows the jack to reach all lift points under a vehicle
- Lightning™ hydraulic lift system quickly raises the vehicle to desired lift height
- Jack is equipped with a rubber saddle pad and foam handle bumper to protect the vehicle
- Ball-bearing rear-mounted swivel casters for easy manoeuvrability
- Meets or exceeds ASME PASE 2019 Standards
- Equipped with safety bypass valve to prevent overloading

2-1/2 Ton Service Jack

030415 | 952B

GOOD**

- Model 952B has been the standard of the Canadian industry for over 20 years
- Heavy-duty casters and saddle
- Two-piece 40" handle
- A great floor jack for everyday use

2-1/2 Ton Service Jack plus 3 Ton Vehicle Stands

030416 | 952B-SP

GOOD**

- Combo pack promotion of 2-1/2 Ton Service Jack & 3 Ton Safety Stands for a super low promo price

JACKS STANDS

10 Ton Jack Stand – Low Profile

032218 | 866A

- Used and sold in pairs for supporting trucks, trailers, and equipment
- Pin-type support column adjusts to a variety of height positions
- Height-adjustment pin is attached to the standby cable to prevent it being lost
- Large saddle with locating lugs to help support and centre the load
- Four-legged base made of heavy schedule 2" diameter pipe for added stability

032218 | 866A

22 Ton Safety Stand Pin Type – Sold in Pairs

032220 | 868

- Used and sold in pairs for supporting trucks, trailers, and equipment in fleet garages, and in tire, brake, and underbody maintenance services
- Large 10" x 10" base for increased stability when working on uneven or soft surfaces such as asphalt
- Multiple pin holes allow adjustment to desired height
- Fully steel construction for maximum durability
- Large v-shaped saddle cradles axle or other under-truck components **A**
- Braided steel cable attaches to pin and stand to prevent loss
- Convenient carry handle for easy portability

IMPACT WRENCHES

3/8" Drive Butterfly Impact Wrench

400120 | IW38BFLY

- Compact, lightweight design – with an overall length of just 5.4" and a total weight of only 1.1 lbs, this tool fits comfortably in the operator's hand
- Produces 80 ft-lbs of maximum torque and 100 ft-lbs of loosening torque
- Butterfly-style throttle provides instant, single-hand direction changes and speed control **A**
- Ideal for under dashboard, transmission, radiators and other engine work where space is limited
- Built-in swivel air inlet increases manoeuvrability and access to restricted work areas
- Impact and chemical-resistant housing protects against repeated drops and exposure to shop fluids
- Housing made from lightweight, durable aluminum
- For maximum performance we recommend 90 PSI air pressure

1/2" Drive Compact Impact Wrench

400268 | IW12MINI

- This compact and lightweight impact wrench delivers exceptional power and performance
- 500 ft-lbs of torque in reverse delivers optimum power and performance
- Weighing only 2.9 lbs, this lightweight impact wrench helps eliminate user fatigue
- Delivers the best power-to-weight ratio in the industry
- One-handed operation Forward–Reverse by either left or right-handed users **B**
- Jumbo hammer mechanism provides more powerful and balanced impact blows for reduced vibration
- Impact and chemical-resistant housing protects against repeated drops and exposure to shop fluids
- Housing made from lightweight, durable aluminum
- For maximum performance we recommend 90 PSI air pressure

1/2" Drive Impact Wrench - Heavy Duty

400260 | IW12HDA

- Ultra-compact design for confined workspaces
- Produces 650 ft-lbs of max torque in reverse
- Highly durable all-steel motor provides ultimate life and performance
- Twin hammer mechanism reduces vibration and increases durability
- Lightweight, balanced design weighs just 4.4 lbs
- Impact and chemical-resistant housing protects against repeated drops and exposure to shop fluids
- Housing made from lightweight, durable aluminum
- For maximum performance we recommend 90 PSI air pressure

IMPACT WRENCHES

1/2" Drive Impact Wrench - Super Heavy Duty

400280 | IW12SHD

- Produces 1,100 ft-lbs of breakaway torque in reverse
- Twin hammer mechanism reduces vibration and increases durability
- Lightweight design weighs just 4.4 lbs
- Impact and chemical-resistant housing protects against repeated drops and exposure to shop fluids
- Housing made from lightweight, durable aluminum
- 4-position torque setting dial and feather trigger allows the user to select the desired speed and torque
- For maximum performance we recommend 90 PSI air pressure

1/2" Angled Impact Wrench

400262 | IW12AHD

- Designed for engine, under-vehicle work, and other confined spaces
- Delivers a max torque of 300 ft-lbs in reverse
- Full teasing trigger to deliver the right amount of speed for the job
- Single-handed Forward-Reverse operation for ease of use and operator comfort
- Over-moulded, composite and ergonomic handle to fit perfectly in hand
- Impact and chemical-resistant housing protects against repeated drops and exposure to shop fluids
- Housing made from lightweight, durable aluminum
- For maximum performance we recommend 90 PSI air pressure

IMPACT WRENCHES

3/4" Drive Impact Wrench - Heavy Duty

400360 | IW34HDA

- Ultra-compact design for working in confined spaces
- Produces 1,200 ft-lbs of max torque in reverse
- Highly durable all-steel motor provides ultimate life and performance
- Twin hammer mechanism reduces vibration and increases durability
- Lightweight, balanced design weighs just 6.3 lbs
- Convenient torque-adjustment dial adjusts torque to desired setting
- One-handed Forward-Reverse and torque adjustment dial for ease of use and operator comfort **A**
- Impact and chemical-resistant housing protects against repeated drops and exposure to shop fluids
- Housing made from lightweight, durable aluminum
- For maximum performance we recommend 90 PSI air pressure

1" Drive Impact Wrench - Super Heavy Duty

400449 | IW1SHD1

- Produces 2,200 ft-lbs of torque in reverse for the toughest applications
- Protective rubber boots provide lasting protection against drops **B**
- Durable design for handling the toughest jobs
- 3-speed adjustment and feather-touch trigger enables impressive control
- Built from a steel hammer case and metal housing, this impact wrench will withstand repeated drops and harsh weather conditions

1" Drive Impact Wrench SHD - 6" Extended Anvil

400450 | IW1SHD6

- Internally mounted throttle trigger for operator safety and convenience
- Rotatable side handle for added comfort
- Designed for the vehicle repair industry, heavy trucks, tire shops, and MRO
- For maximum performance we recommend 90-120 PSI air pressure

AIR HAMMER

AIR TOOLS

6-PC Air Hammer Kit - Super Heavy Duty

404136 | AH200SHD

SPECIFICATIONS

- Feather trigger for precise speed control
- Ergonomic handle grip for optimal balance and control
- Tool-free, rotating exhaust-direction dial allows the user to direct the exhaust to either the front or handle of the tool
- Anti-vibration mechanism reduces user fatigue
- Ergonomic handle grip for optimal balance and control
- Swivel air inlet to prevent air hose from twisting during operation
- One-piece rubber over-moulded grip reduces shock and slippage
- Comes complete with 5 chisel bits, quick-change retainer and blow

CREEPERS

4-Way Folding Creeper Seat

355121 | JFZC-43450SHD

- Patented design quickly converts between flat creeper, high-back low seat, low-back low seat, and backless high seat with ease
- One-touch pin locks secure seat in any position and cannot be adjusted accidentally
- Six 3" professional-grade polypropylene swivel casters for smooth, easy rolling over cords, hoses, cracks, and shop floor debris
- Includes fold-down tool tray for convenience
- Upholstery resists most shop chemicals and cleans easily
- Gloss black powder-coat finish protects frame from corrosion
- Super heavy-duty 450 lb capacity for the most demanding applications
- The most versatile creeper seat on the market – if you can only buy one creeper, this is the one that does it all!
- Overall Size (L x W x H): 42.4 x 16.0 x 5.6"

40" Fixed-Head Creeper

355102 | JFHC-40400

- Heavy-duty creeper features roomy working space with extra-long 40" overall length and drop-shoulder design for increased mobility and comfort
- Low-profile, wide-frame shoulder cut-out design provides extra comfort and freedom of movement
- 355112 - Adjustable headrest with 3 stop positions up to 15, 30, and 45-degrees **A**
- Six 2.5" professional-grade polypropylene swivel casters for smooth, easy rolling over cords, hoses, cracks, and shop floor debris
- Patented caster bracket distributes weight across a larger area of the frame for maximum strength and durability **B**
- High-density 1.5" thick foam and double-padded headrest for maximum comfort
- Upholstery resists most shop chemicals and cleans easily
- Gloss black powder-coat finish protects frame from corrosion
- Heavy-duty 400 lb weight capacity (evenly distributed)
- Overall Size (L x W x H): 40.3 x 16.7 x 4.1"

40" Angle-Head Creeper

355112 | JAHC-40400

CREEPERS

Big Wheel Creeper

355116 | JBWC-40400

- Heavy-duty creeper features roomy working space with extra-long 40" bed
- Frame rails are completely beneath bed for increased mobility
- Four 5" swivel industrial-grade PVC caster wheels for better movement and support over rough surfaces **C**
- Drop-frame design allows for low ground clearance and extra-large wheels
- Vinyl cover resists most shop chemicals and cleans easily
- High-density 1.6" thick foam and double-padded headrest for maximum comfort
- Sturdy, square steel-tube frame to increase strength and durability
- Gloss black powder-coat finish with blue upholstery
- Heavy-duty 400 lb weight capacity (evenly distributed)
- Overall Size (L x W x H): 46.2 x 23.5 x 7"

42" Low-Profile Blow-Mould Creeper

355132 | JBMC-42440

- Made with 100% new high-density polyethylene for unparalleled strength and long life – no recycled materials
- Six 2.5" professional-grade polypropylene swivel casters for smooth, easy rolling over cords, hoses, cracks, and shop floor debris **D**
- Large padded headrest provides maximum comfort
- Dual-moulded parts trays help you stay organized
- Extra-low profile easily fits under most vehicles **E**
- Heavy-duty 440 lb weight capacity (evenly distributed)
- Overall Size (L x W x H): 42 x 21 x 4.65"

Mechanic's Rolling Stool

355157 | JMS-642A

- Hydraulic piston adjusts seat from 15.6" – 20.4"
- Includes convenient tool organizer tray
- Five 2.5" professional-grade polyurethane swivel casters for smooth, easy rolling over cords, hoses, cracks, and shop floor debris
- High-density 1.8" (thick foam for maximum comfort
- Upholstery resists most shop chemicals and cleans easily
- Gloss black powder-coat finish protects frame from corrosion
- Heavy-duty 300 lb weight capacity
- Overall size (L x W x H): 14.5 x 14.5 x 20.4"

Deluxe Mechanic's Rolling Stool

355161 | JMS-350SHD

- Patented elevator tool tray rotates 360° and automatically adjusts to seat height to keep tools within reach at all times **A**
- Hydraulic piston adjusts seat from 17" – 21.5"
- Five 3" professional-grade polyurethane swivel casters provide maximum stability and smooth, easy rolling over cords, hoses, cracks, and shop floor debris
- High density 2.5" thick foam padding for maximum comfort
- Upholstery resists most shop chemicals and cleans easily
- Gloss black powder-coat finish protects frame from corrosion
- Super heavy-duty 350 lb weight capacity for maximum support and long service life
- Overall size (L x W x H): High: 15 x 15 x 21.5" Low: 15 x 15 x 17"

Swivel Bar Stool

355151 | JBS-2700

- Chrome tube construction is durable and looks great in the shop!
- Ideal height for working at the bench or the tool cabinet
- Upholstery resists most shop chemicals and cleans easily
- High-density 3.5" thick foam for maximum comfort
- Heavy-duty 300 lb weight capacity
- Overall Size (L x W x H): 20.2 x 20.2 x 28.7"

ROLLER SEATS

- Includes convenient tool organizer tray
- Four 2.5" professional-grade polyurethane swivel casters for smooth, easy rolling over cords, hoses, cracks, and shop floor debris
- Sturdy, square steel-tube frame to increase strength and durability
- Upholstery resists most shop chemicals and cleans easily
- Gloss black powder-coat finish protects frame from corrosion

355154

- High-density 1.8" thick foam for maximum comfort
- Heavy-duty 330 lb weight capacity
- Overall size (L x W x H): 14.3 x 14.3 x 14.3"

355155

- Under-seat tool drawer with ball-bearing slides for convenient storage of commonly used tools **B**
- High-density 2.38" thick foam for comfort
- 250 lb weight capacity
- Overall size (L x W x H): 18.3 x 13.9 x 14.3"

Mechanic's Roller Seat

355154 | JMS-641A

Mechanic's Roller Seat with Drawer

355155 | JMS-641D

Deluxe High/Low Roller Seat

355163 | JHLS-330SHD

- Unique quick-change shop seat provides high and low seating positions with back support
- Ideal for jobs that require long periods of work at various heights
- Low configuration allows user to slide legs under vehicle while seated for close-up work such as paint preparation, detailing, pin stripping, etc. **C**
- One-touch pin lock secures seat in either position and cannot be adjusted accidentally
- Includes tool tray for convenience
- Four 2.5" professional-grade polyurethane swivel casters for smooth, easy rolling over cords, hoses, cracks, and shop floor debris
- Upholstery resists most shop chemicals and cleans easily
- Gloss black powder-coat finish protects frame from corrosion
- Super heavy-duty 330 lb weight capacity for maximum support and long service life
- Overall size (L x W x H): 22 x 15.4 x 31.2"
- Seat height: High: 19.2" / Low: 8.6"

3-Drawer Rolling Toolbox Seat

355160 | JTBS-3

- Tool cabinet and seat combination keeps a wide array of tools conveniently close at all times
- Can be custom loaded for specific jobs or keeps a full array of tools handy for whatever job that comes along
- Three ball-bearing-supported drawers with drawer liners and two fold-up trays with magnetic pads to hold small parts and tools
- Includes screwdriver rack/tool holder mounted to rear of seat **D**
- Four 2.5" professional-grade polyurethane swivel casters for smooth, easy rolling over cords, hoses, cracks, and shop floor debris
- High-density 2.38" thick foam for comfort
- Upholstery resists most shop chemicals and cleans easily
- Gloss black powder-coat finish
- Heavy-duty 350 lb weight capacity
- Overall size (L x W x H): 26.38 x 14.13 x 16"

JET **HD** SERIES

The New Standard for Professional Tool Storage!

COMMON FEATURES

- Double-wall 18-gauge steel construction withstands the heaviest loads
- Riveted aluminum mouldings protect box corners from impact and increase rigidity and strength
- Extra-generous 21.5" depth provides increased storage capacity
- 120 lb-capacity ball bearing slides on all drawers for smooth, easy operation even when heavily loaded
- Soft-close drawer slides prevent slamming the drawers closed, keeping tools organized and ensuring drawers are completely closed before locking or moving toolbox
- Extruded aluminum drawer pulls ensure positive grip when opening heavily loaded drawers
- Recessed side handles for a clean, professional look
- Gas shocks support chest lid
- Lowered till height allows easy access to tools in top chest
- Magnetic tool wall helps keep small parts and tools organized **A**
- USB-powered LED lighting
- Durable oven-baked wrinkle finish resists fingerprints and most shop chemicals

41" x 21" HD Series 4-Drawer Mechanic's Chest

842664 | HDMC4104TW

- Power supply management includes 6 AC and 2 USB outlets with switch
